Carol Lynn (Wright) Pearson, gorgeous winner of fictitious beauty contest graciously accepts bouquet from emcee Dave Jacobs. The two have recently recorded a new record entitled, "Miss True BYU."

"Winter Y-Land" ...

Winter Carnival Is Next Week

The heavy snowfall in Provo this week pleased at least one group besides the skiers. The BYU Winter Carnival Committee is happy and hopes the white cover lasts a couple of weeks.

Scheduled for the week of Feb. 6-11, Winter Carnival festivities include snow sculpture competition,

fashion show, concert, dance, ice carving, skiing, skating, hockey, snow races and other events.

Faculty members will be allowed to enter the snow sculpture contest this year for the first time. In the contest, various campus organizations vie for prizes awarded for their art and ingenuity. The figures

in past years have been 10 to 12 feet high and the statues decorated with food coloring.

The Winter Carnival king and queen, chosen for their skills as well as appearance, will be crowned at the devotional assembly on Feb. 7. They will reign over the week's activities, geared to the theme of "Winter Y-Land."

Prizes in individual events will be a kiss pass or equivalent. Prizes for campus groups have not been disclosed. Entries for all events should be turned into the Winter Carnival Office 119 Wilkinson Center by 5 p.m. Feb. 6.

Daily, near the Smith Family Living Center, donuts and hot chocolate will be sold.

Thursday Feb. 9 Winter Y-Land Follies will be held in the Wilkinson Center Ballroom at 7 p.m.

The official first presentation of the Winter Carnival Royalty will take place at the Follies and a winter fashion show is also on tap.

The Lettermen will be featured at the concert Feb. 10. They will be accompanied by the Wilson Brown Trio.

Tickets for the concert will be \$1.50 for green seats and \$1.25 for bleacher seats. All tickets will go on sale Feb. 6.

Following the concert a dance will be held in the Wilkinson Center Ballroom.

Tickets for the dance will be \$1.50. They will go on sale at 8 a.m. Monday, Feb. 6 in the ticket office Wilkinson Center third floor.

New Record Jabs Beauty Contests

By Dana Gregory,
Society Editor

All the fallacies that ever existed in beauty contests are rolled into a new delightful record currently on sale in the Bookstore. "Miss True BYU," written and recorded by Carol Lynn (Wright) Pearson and Dave Jacobs is the epitome of satire amongst the gorgeous girdles of the glamour set.

WHAT NEXT?

While poo-pooing the adversities of beauty contests in general, Dave says, "Carol Lynn and I don't really dislike beauty contests, we feel there are too many of them here at BYU. Carol Lynn chimed in with "Next thing you know they'll be having a contest for a Miss Men's Restroom!"

Carol Lynn and Dave have been working together since 1960 when they were active in the dramatic arts dept. However, they had never had the opportunity to do comedy until they came up with "Miss True BYU" for the faculty assembly last spring.

Both are employed at the motion picture studio. Dave has been casting director for the past five years and will receive his Masters degree from BYU this May. Carol Lynn, also a BYU graduate is a script writer.

While attending BYU, Carol Lynn was voted Best Actress for two consecutive years (1961 and 62). In 1960 she traveled with the BYU company of "Blithe Spirit" in conjunction with the USO to the Orient. She is a noted poetess throughout the intermountain area, recently being published in the Improvement Era.

TRAVEL TO ORIENT

Dave traveled to the Orient in 1959 with the famous "Curtaintime USA. He was voted Preferred Man in 1960, and served as Vice President of Culture, 1960-61.

In 1963 both traveled to Europe with a group of students where they entertained throughout the continent. Carol Lynn then left the group and traveled extensively throughout the world for one year. Included in her travels were Africa, Greece, Russia and Israel.

**Southern and Summers leave
for Washington D.C. tonight.**

ASBYU Pres. And Novelist To Washington

ASBYU president Lynn Southern leaves today to attend the 15th annual Presidential Prayer Breakfast in Washington D.C.

According to Southern, the breakfast indicates to the world that the United States still places significance in God.

After the breakfast, Southern will attend a seminar with other student leaders to discuss contemporary problems.

Jaron Summers, Daily Universe Managing Editor leaves for Washington D.C. tonight to attend a United States Student Press Association Conference.

The conference which begins Friday will feature nationally famous speakers from throughout the United States. Summers also plans to fly to New York where he will attempt to interest a publisher in the 60-hour novel he and Universe Editor Dennis Berrett typed during semester break in Clark's window.

Puma Grapplers To Northwest

By Glen Willardson
Universe SportsWriter

BYU's wrestling squad leaves for the West Coast today in what could be the toughest road trip of the season for the Cougars.

The Y grapplers will meet Portland State College Thursday and Oregon State Friday. Both teams are ranked among the national wrestling powers.

Competing against the Cougars will be Portland State's Rick Sanders, NCAA champion in the 115-lb. class. Sanders will be wrestling in the 123-lb division against BYU's Jeff Batchelor.

STIFF CHALLENGE

Oregon State lost a close match to top-ranked Oklahoma State earlier in the season by a 17-14 margin, and promises to give the Cougars a stiff challenge. Oregon State was also defeated by Portland State this year.

Coach Fred Davis, following his team's 18-9 victory over Western State College last weekend, remarked that the squad is improving more with each match. The victory over Western State gave the Cougars a 4-1 record for the season.

NORTON UNBEATEN

Sophomore John Norton maintained his undefeated status in the 167-lb. class with a 7-1 decision over Western State's Gayle Eaton. Norton has defeated eight opponents without losing a match this year.

In other matches with Western State, Jeff Batchelor (BYU, 123-lb.) decisioned Bruce Montgomery, 8-4; Joe Stryker (WS, 130-lb.) decisioned Efrain Escalante, 9-0; Russ McAdams (BYU, 137-lb.) decisioned Gary Odds, 8-2; Bill Osborne (BYU,

145-lb.) decisioned Sam Urick, 5-3; (BYU, 167-lb.) decisioned Gayle Howard Hall (BYU, 152-lb.) decisioned Russ Snyder, 6-3; Steve Epperson (BYU, 160-lb.) decisioned Bob Turner, 3-1; John Norton decisioned Bob Christensen, 7-3; Eaton 7-1; Max Anderson (WS, 177-lb.) decisioned Joe Lyman, 4-3; and Tim Edsen (WS, heavyweight) and Tim Edsen (WS, heavyweight) and Tim Edsen (WS, heavyweight).

Cougars Prep For Cal Meet

Although they are still some distance from peak indoor form, three members of BYU track squad this weekend will travel to California for the San Diego Invitational.

The trio will consist of high jumper Ed Hanks and distance runners Tim Danielson and Bob Richards.

PAIR STAIR

Both Danielson and Hanks placed well at the Oregon Indoor Invitational meet held last weekend in Portland.

Danielson placed second in the mile with a 4:10.4 clocking, a little more than a second behind the winner, Oregon's Wade Bell. Both Danielson and Bell ran a slow 2:09 first half.

Hanks placed fourth in the high jump with a leap of 6'8". The winning jump by Ed Caruthers of Arizona was 7'0".

FROSH FINNS

The Cougars' two freshmen from Finland, Pertti Pousi and Jaakko Tuominen, also fared relatively well in their first indoor action of the season.

Pousi placed fourth in the broad jump at Portland with a 24'2 1/2" best effort. First place went to Olympic champion Ralph Boston with a leap of 25'8".

Tuominen entered the 500-yard run, placing third with a :58.1 clocking in his first effort of the season in that event.

FORMER COUGAR

Felt, a native of Lehi, Utah and former all-conference halfback at BYU, played with the Cougar varsity from 1951-54. He was called on a church mission in 1955, and returned to BYU after completing his mission. He graduated from BYU in 1958 and was commissioned as an officer in the U. S. Air Force.

For two years he played with Boeing Air Force Base in Washington, and in 1959 he was named the most valuable player in the Air

Ired Aggies Set Traps For Visit Of Y Cagers

by Randy Keernig
Assistant Sports Editor

Having their win streak snapped in Chicago by a strong Texas Western club, BYU's cagers will try to get back into the win column against the Utah State Aggies in Logan this Saturday.

The last time the two clubs met, the Cougars needed a victory so bad they could taste it. They were sporting a 5-5 record after a dismal road trip and they took out what was bugging them on LaDell Andersen's Farmers.

AGS TRAMPLED

The Pumas trampled USU 92-66 as senior center Craig Raymond had the best night of his college career with 35 points while the Ags had only one man, Shaler Hallimon, in double figures.

The Cougars, now with a 19-6 record which includes two exhibition contests, are not expected

Force and the outstanding back in service ball.

Following his discharge from the service in 1960, Felt was signed by the New York Titans. He played two seasons with the Titans, and

Continued on page 8

to whip the Aggies by 26 points in Logan, but a win away from home would definitely be impressive in that all six of BYU's losses have come away from the Provo court.

EDGE UTES

The Utes, with a 14-3 record, edged Utah last week by a score of 62-61—a wild game in which two players were ejected for fighting.

Coach Andersen's crew has been paced by forward Jim Smith who was averaging 25.3 points per game going into the encounter with Utah. Shaler Hallimon, who banged in 30 points against BYU in Provo, has also been providing better-than-adequate scoring punch for the Ags, while big Alan Parrish, USU's 6'8", 240-lb. center, has been rebounding as if he owned the boards.

Meanwhile, Coach Stan Watts' Pumas have continued their almost unbelievably balanced scoring attack. All five starters are in double figures. Senior forward Neil Roberts holds the lead at 13.7 ppg while Raymond is a tenth of a point behind at 13.6.

Saturday night's game will be aired on closed circuit television in the Smith Fieldhouse. Tickets may be purchased in the Fieldhouse ticket office.

'After graduation, what? Will you begin your career as a engineer or scientist or return to school for an advanced degree? You can do both at NOL

If you are an engineer in the top third of your class or a scientist in the top quarter of your class, NOL offers you the opportunity to begin your career in one of the world's great laboratories and, at the same time, go ahead with your plans for graduate study.

NOL is a laboratory in the true meaning of the word, and one of the largest and best-equipped laboratories in the world. It is the nation's leading R&D establishment for Anti-Submarine Warfare (ASW), the Navy's principal high speed aeroballistics activity, and a leader in the development of new air and surface weapons. The spectrum of research at NOL ranges from nuclear effects to acoustics to explosives and materials. At NOL, weapons development is carried through from inception to design to prototype test and development. Since 1950, NOL has completed 209 new weapons and devices such as SUBROC, nuclear depth bombs, mines, projectile fuzes, underwater detection systems, and components and design data for POLARIS, TARTAR, TALOS, TERRIER, ATLAS and TITAN missiles. A civilian staff of over 3,000 people includes more than 1,000 professional engineers and scientists—experts with national and international reputations. Extensive and unique facilities embrace wind tunnels operating to Mach 17, hypervelocity ballistic ranges, the world's most exceptional hydroballistic facility, shock tunnels, 300g centrifuge . . . multi-million dollar experimental facilities.

Here is your opportunity. Each year, NOL interviews outstanding engineering and science graduating students. Selects the handful that seems to be really creative. Takes them to its beautiful 875-acre "campus" (the front yard is a golf course). In the rolling hills of Maryland near the Nation's Capital. Puts them through an optional one-year professional development course with rotational assignments to various areas within the Laboratory to prepare them for permanent assignments.

From the very beginning, new staff members have an opportunity to contribute directly to significant projects . . . to be part of an organization where groups are small and emphasis is on the individual.

NOL offers you a graduate study program that is one of the largest and most productive programs in the country. Each year members of our professional staff receive M.S.'s or Ph.D.'s through this program. NOL has a significant advantage in its proximity to the University of Maryland. Many NOL staff members hold permanent part-time positions on the Maryland faculty, and graduate level courses are taught at NOL every semester. Maryland also offers many courses on its own campus—only minutes away—at times which are convenient to and keyed to the special requirements of NOL.

air systems, instrumentation for weapons evaluation, aeroballistics research, and performance of in feasibility experiments.

Chemical Engineers and Chemists—for research open to high-energy propellants; solid; high polymers; molecular and crystal electrochemistry; high-temperature, high-pressure equilibrium studies; and the thermodynamic energy reactions.

Engineering Physicists and Physicists—theoretical and experimental research in a wide range of areas: signal processing, infrared radiation, acoustics and semi-conductive materials, and detonation plus weapon systems development and studies.

NOL ACADEMIC STUDY PROGRAMS

PROGRAM	COMPETITION	ADMITTANCE	SUPPORT
Part-time Graduate Study	Open to all qualified employees.	Approval by line management.	Refund of tuition and course grade is "B" or better . . . approx. 1/2 travel time for attendance.
Graduate Work Study	Recent college graduates in certain engineering & scientific fields.	Selected by Personnel Officer . . . admission to local graduate school for M.S.	Full salary, tuition, books . . . 2 days each week devoted to study and for 2 years maximum.
Intermediate Graduate Study	Recent college graduates in certain engineering & scientific fields.	Selected by Personnel Officer . . . admission to graduate school . . . an honors program.	Full tuition, books, fees, travel, per diem, & 1/2 salary . . . (over \$3300) 2 semesters full-time.
Advanced Graduate Study	Scientists & Engineers, grade GS-11 and above.	Selected by NOL Training Committee.	Full tuition, books, fees, travel, per diem, & full salary for 2 semesters.

NOL NEEDS:

Aerospace Engineers or Hydrodynamicists—design studies of high speed, high-performance re-entry systems, basic problems in theoretical and experimental aerothermodynamics, aeroballistics and hydroballistics; and aerodynamic design and development of hypervelocity wind tunnels and ballistic ranges.

Mechanical Engineers—conceptual design and development of warhead safing, arming and target-detecting devices for tactical and strategic missiles, underwater weapons, vehicle structures, and mechanical or electromechanical time and motion-sensing mechanisms.

Electronic Engineers—design, development and evaluation of underwater communications and detection systems, weapons guidance systems, influence fuzing, air-borne mis-

American Success Story Acted In Musical Comedy

A comedy of the
er season will be
n Business With-
as directed by
I is starred as
washer who dis-
er fall of Machin-
at getting alone
yrd and who fol-
so unwaveringly
ing quite a rep-
ed-coming lad at

the World Wide Wickets Co. Finch's
boss, J.B. Biggley played by Scott
Whitaker, is the tough-minded,
high-handed, majestically incompet-
ent corporation president.

Tamara Fowler portrays Rose-
mary, a girl so attached to her
fast-climbing boyfriend, Finch, that
she is willing to "bask in the glow
of his perfectly understandable neg-
lect." Biggley's nephew, Frump,
the villain of the piece is played
with sneaky relish by Jerry Ellison.

Kathleen Stringham depicts Hedy,
the office siren, and Carol Anne
Schuster plays her office chum,
Smitty.

Brandt Curtis and Richard Bal-
lou will direct the musical score
by Frank Loesser whose lyrics
have a tongue-in-cheek touch, and
whose music has zing. Choreogra-
phy by Frank Hatch and Ellen
Davis offers brisk and imaginative
dance numbers.

The setting for the show, de-
signed by Charles Henson, is the
largest set ever built on the BYU
campus or on any other campus for
that matter. An entire two-story of-
fice building with a moveable front
has been constructed on the DeJong
concert hall stage.

Tickets which are free with activ-
ity card, go on sale Feb. 6 at the
box office in the main lobby of the
Harris Fine Arts Center.
